

Stay active and independent with Mobile360

Your life should not be limited by the range of your mobile personal emergency response system. With Mobile360, you can feel confident staying independent and going anywhere you want to go because you'll know you can get help if you need it.

Mobile360 Features:

Go Anywhere: Go anywhere in the US with cellular coverage and get help if you need it. If you ever need to be located in an emergency, Mobile360 can utilize U-TDOA location technology to help find you.

No base station: Mobile360 is a self-contained system with two-way voice communication built in.

Simple: One button to press to talk with emergency care specialists anytime. Emergency care specialists will send rescuers or loved ones to your location, depending on what is needed.

Small, lightweight and shower-safe: Mobile360 weighs less than half as much as competitor devices and can be used in the shower.

Very long battery life: Mobile360's rechargeable battery lasts up to 2 months between charging, which is more than 43x longer than other emergency alert devices.

Mobile360 is lightweight, wearable and an affordable way for you to stay independent.
